Saloon keepers Paul Hoppen, Samuel Gass, P. W. Schmitz and Wm. At the request of Samuel Gass his license was changed from lot 3 to lot 1 in block 117.

The following preamble and resolution offered by North at previous meeting was taken up and on motion adopted:

WHEREAS, It is believed by the members of the City Council that there is a desire on the part of a large number of the citizens of Columbus to do away with the office of Night Police for the reason that it is an expense to the city for which there is very little need, therefore be it

JOHN SCHRAM, City Clerk.

—In a conversation Saturday with one of our wheat buyers, he tells us to advise farmers to hold their wheat for a better market. The railroad was blocked, and it was impossible to obtain cars. He thought the reason of it was that great numbers of cattle were being shipped from the west over the U. P., and that all the extra cars were being used for this work. In this trade they had to compete with the B. & M., but east of Grand Island, they would get the carrying trade any how, and the other, having to be done now, they couldn't afford not to get it. This is one of the beauties of having no competition.

—The Era says that "every man who casts his vote against Mr. Henry (for commissioner) will say by his ballot that he is opposed to an economical administration of our county affairs, opposed to every needed enterprise, opposed to low taxes, opposed to impartiality and an unswerving purpose to be and do right." Now we undertake to assert that Mr. Wise's record as commissioner (and our opinion is that he will be allowed to make a record) will show that he is not opposed to an economical administration of county affairs; that he is not opposed to low taxes; that he is not opposed to impartiality and an unswerving purpose to be and do right. Whatever good the Era may have to say of the Democratic nominee, it ought not to be necessary for that sheet to slander the fair fame of John Wise, by saying that those who vote for him, are in favor of high taxes, uncalculated expenditures, partiality, economy and an unswerving purpose to do wrong. The chief business of an editor is still to keep lies out of his paper.
